Final 2k initializer members, EMA; three dates × eight members
North Pacific, depth level 0; mean member spectra
Band vector power (m²/s²)
Cycles / computational grid cell
Learned control
OM4 reference
Joint coarse
Joint multires
Conditional GAN
North Pacific, depth level 9; mean member spectra
Band vector power (m²/s²)
Cycles / computational grid cell
Surface; derivatives use wet stencils, |latitude| < 75°
Mean member power / OM4 power
Velocity power
Vorticity power
Divergence power
Vertical alignment; paired wet support
Normalized surface–550 m vector dot product
OM4 reference
Learned control
Joint coarse
Joint multires
Conditional GAN
