
50 same-source update rolling means; GAN scalar loss is not a forecast score
Observation training loss
Learned-noise control
Joint coarse
Joint multiresolution
Conditional GAN
Generator optimizer updates
OM4 forecast contribution (same objective)
Generator optimizer updates
OM4 initializer CRPS contribution
Generator optimizer updates
Observation G gradient norm (pre-clip)
Generator optimizer updates
OM4 G gradient norm (pre-clip)
Generator optimizer updates
GAN OM4 objective contributions
0.1 × adversarial initializer
0.5 × (monthly + native CRPS)
Generator optimizer updates
